Ordering in 4 Simple Steps

1. Remove shoe.

2. Measure from floor (A) to top of kneecap (B), while standing.
   Round DOWN to the nearest size (Example, if you measure 21 ¾ select 21.5)

3. Measure around widest part of your calf muscle (C), with work pants on.
   Round UP to the nearest size (Example, if you measure 13¼ select 13.5)

Which width you receive is determined by the “C” Measurement - 17.5” or larger DEFAULTS to Model 0714E® WIDE

4. 1” VS 5/8” FOAM INSERTS
   Over 75% of our customers prefer 1” Foam Inserts!

We recommend 1” if the following conditions apply:

- If you are working on your knees at least 8 hours per day
- If you have had any knee problems or surgery
- If you weigh more than 200 lbs
- If you prefer the maximum protection that ProKnee® has to offer

(Scale in inches)
